SKIN CONCERNS:
LOSS OF DENSITY & DEFINITION; DEEP
WRINKLES; AGE SPOTS & DRYNESS

ADVANCED TECHNOLOGIES:
NovAge Time Restore gives mature skin everything it needs to be the best it can be. The powerful duo of Genistein^{SOY} Technology and Ribwort Plant Stem Cell extract intensively nourishes and hydrates for denser, more resilient skin, with more defined facial contours and less pronounced deep wrinkles and age spots.

Clinically proven to improve mature skin⁴²

⁴² Clinical test for hydration using the NovAge Time Restore Skin Care Set.

GENISTEIN^{SOY} TECHNOLOGY

Genistein^{SOY} Technology helps to boost the skin's collagen and cellular water channel levels, re-densifying the skin and smoothing out deep wrinkles.

RIBWORT PLANT STEM CELL EXTRACT

Ribwort Plant Stem Cell Extract helps inhibit the degradation of the skin's structural matrix to help maintain density and diminish the development of age spots.

UNDERSTANDING HORMONAL DEPLETION

During menopause, oestrogen levels diminish sharply. Oestrogen is vital for the synthesis of collagen and water-carrying molecules which keep skin dense, hydrated and supple. When depleted, the rate of collagen synthesis slows and degradation speeds up. As a result, skin becomes drier, less dense and resilient, with deeper wrinkles and less

defined facial contours

As we age, there is also a reduction in melanin-producing cells (melanocytes) in the bottom layer of the skin's epidermis. To counteract this, cells work harder to try and protect the skin from UV damage. Coupled with the collagen loss, this causes melanin to spread and accumulate in dense patches rather than being evenly distributed, visible as age spots.

HERO INGREDIENT

B³

Vitamin B3 helps to visibly even out the skin tone, while leaving your skin with a fresh glow. It's also responsible for helping to nourish the skin and promote a healthier, stronger skin barrier. At the same time, it promotes smoother, softer skin by helping to reduce moisture loss and improving the skin's texture.

E

Vitamin E is not only essential for human health, it's critical for maintaining healthy-looking skin. However, what most don't realise is, Vitamin E cannot actually be produced by the human body. This makes external sources vital and skin care containing this important ingredient is a foolproof way to help meet your skin's daily needs.
